

Lemon Grove Unaffected by S. D. Action

The action of the San Diego city council in barring sewage disposal service to unincorporated areas does not affect the Lemon Grove Sanitation District, said Supervisor Bird to a Review representative this week.

A story published in a La Mesa paper to the effect that San Diego was barring the sewage disposal service to all unincorporated areas, prompted this newspaper to investigate the matter and Supervisor Bird allays the fears of the Lemon Grove people that such action, if taken by the city, would leave the local sanitation district without means of disposal.

The story, as published in the La Mesa paper, infers that the unincorporated areas get the free use of the San Diego city sewage disposal plant, while such is not the case.

The Lemon Grove Sanitation District pays \$108 per million gallons for sewage disposal, and whenever there is annexation of territory to the local district, just that much more sewage is there to swell the gallonage, hence increase the amount paid to the city.

Lemon Grove Tax Rate Set at \$6.79

The tax rate for Lemon Grove this year is \$6.79 per \$100 of assessed valuation. Broken down, the figures show:

General County tax	\$2.52
Schools	2.78
Library	.06
Sanitation District	.36
Fire District	.55
Metropolitan Water District	.42
S. D. County Water Authority	.10

Aside from the county general tax, water district, water authority and library, the other taxes affect only the property lying within the school district, the fire district or the sanitation district.

The Vista La Mesa area has a slightly lower rate in that it is not in the fire district or the sanitation district. That area is in the Rolando Sanitation District, with a rate of 42c, and has a lighting district with a 17c rate.

Urges Support of Local Postoffice

Postmaster F. R. Faucher told the directors of the Chamber of Commerce Tuesday evening that a few more thousand dollars of business this year will put the local postoffice in the first class rating.

After hearing Mr. Faucher explain what a first class office would mean to the community, the board passed a motion endorsing the efforts of the postoffice staff to put the office into a first class office, and urged the residents of the community to get behind the movement and help with their stamp purchases and other postoffice business.

A first class postoffice would mean more help in the office, and more carriers on the street.

DATES CLAIMED

October 15—Turkey dinner, St. John of the Cross Parish, 12:30 to 6 p. m.

Hi, Neighbor by Mae Rex Graham

National Newspaper Week, October 1 to 7.

So all of the newspapers told us. Many of them enlarged the newspapers as disseminators of news, a great advertising medium, leaders in community, state and national service, and on and on.

To the Review folks this week has been just like every other week in the year—newspaper week.

A week in which to serve Lemon Grove; to bring to the attention of the local public the needs of the community, especially the schools; to record the actions and services of the civic organizations, the comings and goings, the births and deaths.

The Review is rewarded for the grind week after week by the people who subscribe for the paper. We try to compensate them with accurate news and information in return for their cooperation.

In these days of ever increasing prices, we especially appreciate the subscription renewals paid up in advance, and the new subscriptions.

News print, the chief item in producing a newspaper, has not only reached an all-time high, but is becoming hard to get for the country papers.

We would not fail to mention the business men who support the Review through advertising. We not only appreciate their friendship and support, but we strive to give them a medium through which the public will become acquainted with the wares, the services and the ambitions of Lemon Grove business men to make this a good shopping center.

Few cities the size of Lemon Grove can furnish the parking facilities found here—free. With the double width streets, no matter what the event, you can always find a place to park on the business streets of Lemon Grove.

WRITE A LETTER

October 15 to 21 is National Letter Week. During that time the postoffice is urging everyone to write at least one letter to the folks back home.

Activities at Grossmont High

All Grossmont Union High School freshmen and sophomores girls and their mothers attended a fashion show held by the Tri-Y Teens at La Mesa Youth Center last Thursday evening, to acquaint them with the aim and activities of Tri-Y Teens.

Members of the club modeled and the theme was "Clothes for Every High School Girl Occasion," including school, after school, date and bedtime apparel. Refreshments were served after the fashion show.

Mary Alice Bigley, the president of the Tri-Y Teens narrated the proceedings. The other club officers include Laura Collins, vice-president; Carol Culver, secretary; Barbara Minge, treasurer; Dorothy Anderson, Inner Club Council Representative; Miss Martha-Lee Barnes sponsors the club.

Mr. Wilbur Folsom of El Cajon, California, a noted tennis instructor and coach of Maureen Conley, gave the Grossmont High School girls' tennis classes a demonstration on tennis techniques last Friday. He told them that they would have to work to become good tennis players. He showed the proper way to serve and said it isn't how hard, but where you hit the ball that decides the game.

"Jenny Kissed Me," the Broadway hit of 1948, by Jean Kerr, will be presented by Grossmont High Associated Student Body, on November 1, 2 and 3, at 8:15, in the school auditorium. "The play will be in line with the best ever presented at Grossmont," stated Mr. Raymon Kniss, director.

Business is never so healthy as when, like a chicken, it must do a certain amount of scratching.

Unit Headed by Myttinger Ordered to Camp Roberts

San Diego's 93rd Army Field Forces Band, California National Guard, has been ordered into Federal Service, Brigadier General George W. Fisher, commanding San Diego guard units announced today.

The band is commanded by Warrant Officer DeWitt H. Myttinger, employed in the research department of Solar Aircraft Company. Myttinger said that the band is scheduled to depart for Camp Roberts, California, October 15.

Mr. Myttinger resides at 1575 Skyline drive, Lemon Grove.

There are a number of vacancies in the band, Myttinger said, specifically for clarinet and cornet players, as well as bass violin and trombone.

Young men who can play a musical instrument should enlist in the 93rd AFF Band now to ensure themselves of a military assignment in a field which they know. In addition, Myttinger pointed out, young men from San Diego will have the opportunity of serving their careers with men from their own home town. Persons interested should call the Armory, F-6487 for additional information.

Drawing Plans for New Schools Here

The architectural contract for the Vista La Mesa School addition has been given to Jack Lewis, who was formerly employed in the office of Sam W. Hamill, architect. During the time Mr. Lewis was employed by Mr. Hamill, he made the original plans for the Vista La Mesa School.

A second contract for architectural work on the San Miguel School has been let to the firm of Marsh, Smith and Powell. This was recommended by Mr. Hamill, the school district architect, since his office would be unable to handle the volume of work made available by the unfreezing of State school building money. This was done so that the plans on all school projects would progress as fast as possible. Further progress on all building plans in the Lemon Grove district will be released soon. Mr. Netzeley, school superintendent said.

THE UNDERWORLD DECLARES WAR

The national crime scene
grows uglier.

The U. S. Senate was defied
with bullets last week when a
witness, whose testimony was
pending before Senator Estes
Kefauver's Crime Investigating
Committee was silenced by un-
derworld assassins.

This prospective witness, Wil-
liam J. Drury, who had been
fired from his job as a Chicago
city detective, knew he was in
danger of a "rubout" and had
asked the Senate committee for
protection. Before this could
be arranged, he was shot to
death in his own garage.

Within hours of his death, also
in Chicago, an attorney, Marvin
J. Bas, was similarly murdered.
Police hinted Bas had been gath-
ering information on gambling,
vice and other underworld ac-
tivities for a candidate for
sheriff—and gangsters feared

that he had learned too much.

On the same day, in New York
City, a sensational scandal in-
volving police grafters who
shook down multi-million-dollar
bookie rings for millions in pro-
tection money, was climaxed
with the resignation of William
F. O'Brien from his office as Po-
lice Commissioner.

Weak and evil men will con-
tinue to make crime news, and
complete eradication of under-
world activities is a Utopian
ideal impossible of attainment.
Yet there is timely warning in
this dramatic flareup for all of
us in California, since the No-
vember election ballot contains
a proposal in Proposition No. 6,
to actually legalize open and un-
restricted gambling throughout
the State—a step that would in-
vite the kind of depraved crim-
inals that made this sordid
Chicago and New York news to
come to California in hordes.
Honest law enforcement officials
have heavy enough going at
times against the underworld,
even with the best offensive
weapons of the police, the laws
and the courts.

To tie the hands of the forces
of law and order and give legal
sanction to the underworld by
passing such an ill-advised mea-
sure as Proposition No. 6 would
be the height of folly on the part
of the California electorate.

Proposition 6 is wrong, even
though the act were one of the
most benevolent nature, in that
the men who are to administer
the measure, are named in the
bill. The people have no alterna-
tive but to either vote for or
against these men by "yes" or
"no" vote. No other candidates
will appear on the ballot. In
Germany during the regime of
Hitler it was a "Ja" vote or else.
Don't let it come to that in these
United States.

THE WORLD'S BIGGEST BUSINESS

The U. S. Government, which
continually points with alarm to
major industries as being too
"big" for the Republic's well-
being, last week announced that
employees on its civilian pay-
roll now number 2,060,000.

Against that figure, consider
the "too big" U. S. steel indus-
try. The total of men working
in the mills of all the 200 com-
panies that comprise the indus-
try is 616,000—fewer than a
third of Uncle Sam's paycheck
cashers!

Consider the huge automotive
industry. The total of workers
engaged in producing all the

cars and trucks, everything that
runs on rubber, from Cadillacs
to jeeps, is 894,000!

Consider, too, that the produc-
ing steel and auto and other in-
dustrial workers earn the bread
they eat by their labor—while
Uncle Sam's payroll pets eat
taxes.

Indeed there is a business that
needs to cut down to size for
the welfare of this taxoppressed
country—and carping Uncle Sam
needn't stick his nose outside
Washington to locate it!

The boys have been doing an
excellent job this fall at all
dangerous crosswalks and inter-
sections in and around the busi-
ness district. Students have been
taught to have the highest re-
gard for the authority as traffic
directors; it is hoped that all
motorists will show them the
same type of respect due them.
Through their efforts, children
cross busy streets safely to and
from classes, and the excellent
work they do is sincerely ap-
preciated by everyone in the com-
munity.
